

Prior compliance list of aircraft operators specifying the administering Member State for each aircraft. October 2011

The Commission must publish a list of aircraft operators which on or after 1 January 2006 performed an aviation activity listed in Annex I of Directive 2003/87/EC that specifies the administering Member State for each aircraft operator ("the list").

The Commission updated the list of aircraft operators on 20 April, this list includes aircraft operators allocated to 30 EEA states, including Iceland and Norway.

It is important to stress that the inclusion in the EU emissions trading scheme (EU ETS) is linked to the performance of an aviation activity and is not subject to inclusion on the list. That means that aircraft operators that perform an aviation activity listed in Annex I to Directive 2003/87/EC are covered by the EU ETS whether or not they are on the list of aircraft operators at the time of the activity. Likewise operators which cease performing an aviation activity are excluded from the scheme once they cease to perform an aviation activity listed in Directive 2003/87/EC and not at the point they are removed from the list.

The list is legally binding regarding the determination of the administering Member State made in the list. It ensures that each operator knows which Member State it will be regulated by. It also ensures that Member States are clear on which operators they should regulate.

Due to a number of reasons, and especially because a number of aircraft operators use services of management companies, some of those operators have not been identified before the latest update of the official list of aircraft operators. This prior compliance list includes the aircraft operators that:

- Submitted to European Commission their fleet lists from 15 March 2011 to 15 September 2011.

Aircraft operators on the prior compliance list should be included in the list of aircraft operators, adopted by Commission Regulation in February 2012.
