

Latest Registry Account Requirements and Guidance from Icelandic Competent Authority (June 2012)

Please see the link below for the entire process and note that under the headline "Registry System" are three tabs. The tab named "Account opening" lists all the requirements, describes the whole process, and contains forms needed to be filled out by hand, signed, and sent to us via regular mail. The tab named "Information form" is an electronic form which operators need to fill out online and submit by pressing the "Skrá" button (Icelandic for "submit").
